

sPHENIX IB meeting

Gunther Roland, Dave Morrison

IB Agenda

- sPHENIX collaboration progress
 - potential new institutions
 - approach to international contributions
- sPHENIX workforce status, plans, and ideas
 - workforce survey proposal
 - “member in good standing” requirements?
- Future collaboration meetings
 - date, location proposals

example: PHENIX survey – contact info

PHENIX Member in Good Standing for Run-15

The PHENIX bylaws define Members in Good Standing for a given run as "individuals who are associated with a PHENIX institution and who have contributed significantly to the PHENIX experiment." In addition to being named by your Institutional Board Member as an MGS and your Institution fulfilling the shift taking requirement, we are now requiring individuals to certify annually that they are making significant contributions to PHENIX during that year and to briefly describe that contribution (noting that individuals contribute to the PHENIX program in many different ways).

You can submit this form again if you need to make changes.

Type your last name into the box below and then click on your full name in the list that appears. If you do not find your name, please contact your Institutional Board member and also email [Brant Johnson](#)

 start typing your last name

Type your current email address.

 email

example: PHENIX survey – affiliation

Select your current Position:

- ☐ Thesis student
- ☐ Non-thesis student
- ☐ Faculty/Staff
- ☐ Professional/Engineer
- ☐ Postdoc
- ☐ Support

If a student, what year student are you?
(e.g. 1,2 3...)

Select your affiliation from the drop-down list that will appear when you start typing your institution's name (no abbreviations or acronyms). Use fields for second and third affiliations only if you have them.

example: PHENIX survey – MGS + activities

I certify that during 2015 I have contributed significantly to the PHENIX collaboration program and assuming my institution has fulfilled the shift requirements should be an author on all publications resulting from Run-15 data taken.

Yes ☐ No ☐

Tell us about the contributions you are making to PHENIX during Run-15. Keep in mind that there are many ways to contribute significantly to PHENIX. Participating in data taking is one way. Analyzing past data sets (e.g., Run-08 d+Au) is another. Working on R&D for future use in PHENIX (e.g., MPC-EX test beam or sPHENIX/fsPHENIX/ePHENIX design work) is yet another way. So tell us – in at least 100 characters, please – about the contributions you are making.

We would also be very interested to hear about your plans for PHENIX work in the coming year.

Do you expect to be MGS-16? (just a projection, can be changed later)

Yes ☐ No ☐ Not certain ☐

Do you expect to be active in the sPHENIX collaboration in 2016?

Yes ☐ No ☐ Not certain ☐

example: PHENIX survey – interests + add'l info

In the following we are asking your help to provide information to members of the Speakers Bureau on a list of topics you would be comfortable presenting in upcoming conferences. Feel free to check as many boxes as you like (by holding down Ctrl(Windows)/Command(Mac) button). Use the comment box below to provide additional information to the Chair of the Speakers Bureau. Note that this section of the MGS15 form is voluntary.

A_LL/ Delta-G <input type="checkbox"/>	W physics <input type="checkbox"/>	sPHENIX <input type="checkbox"/>	fsPHENIX <input type="checkbox"/>	EIC Detector Evolution from sPHENIX <input type="checkbox"/>
PHENIX Detector Upgrades <input type="checkbox"/>	Fluctuations <input type="checkbox"/>			

The comment box below is for additional (private) communication between you and the PSB. We encourage you to use this to provide general feedback to the PSB, and also specific information, for example "I am a 3rd year postdoc and looking for another position and could really use a talk in the fall" or "I have a new result coming out and would like to present on PPG999 sometime in 2016".
